

Medical Dermatology

Dermatology Consultation

from 205

Treats

Breakouts, acne, eczema, rashes, itchy skin, general skin health, and children's skin.

Appointment time

Approximately 30 minutes

Includes

Expert diagnosis, examination, and explanation of your skin concern. A treatment plan and issue of private prescription if needed. Knowledge on how to keep your skin healthy at home. A report to you and your GP (with consent). If required, blood tests can be completed on the day and will incur an additional charge.

Skin Health Check (MOT)

from 225

Treats

General skin concerns, questions about skin quality, assessment of changes to your skin, and comprehensive skin cancer screening. With a dermatologist/dermatology specialist doctor.

Appointment time

30-40 minutes

Includes

Expert diagnosis, examination, and explanation of your skin's overall health.

A full body mole check.

A treatment plan and issue of private prescription (if needed). The plan and knowledge on how to keep your skin healthy and looking great, for life.

Mole Check

from 225

Treats

Full body annual skin cancer screening including checks for new or worrisome moles.

Appointment time

30 minutes

Includes

Consultation and examination of your skin.

A treatment plan and photographs of moles that need monitoring.

A report to you and your GP (with consent).

Treats

Skin Tag Removal -- from 205 (+ 50 per extra tag)

Cherry Angioma Removal -- from 205 (+10 per extra angioma)

Mole Excision/Biopsy -- 605 (including tests and follow up)

Cryotherapy -- from 150

Includes

Consultation, local anaesthetic to numb the area, surgical removal, closure of the wound by heat or stitches.

Removal of stitches, pathology (for mole removals), and follow-up.

Downtime

Depends on the location and type of removal. Keep clean and dry for 48 hours post-procedure. No strenuous exercise following stitches (if used).

Follow-Up Consultation

from 110

Medical concerns - from £110 to £160

Post minor surgery - free of charge

Post botox/fillers/injectables - free of charge

Sciton BBL Laser

free consultation

450 per area

995 for three sessions

Treats

Pigmentation

Acne

Redness - flushing/rosacea/capillaries on your skin

Promotes cell rejuvenation (great for a non-invasive lift and glow) and proven to turn back cell ageing.

Includes

Consultation, treatment, on hand follow ups.

Downtime

A little redness post-procedure and pigmentation tends to darken before it falls away (this is normal and a good reaction).

Pre-appointment, avoid retinols for 5 days, and keep out of the sunshine (wear a hat and factor 50) for two weeks after treatment.

Cosmetic Dermatology

Botox

from 294

Treats

Forehead lines, gabella lines (between the eyebrows), crow's feet, drooping smile, gummy smile, turkey neck, jowls, teeth grinding, square jaw, excessive sweating.

Appointment time

30-40 minutes

Includes

Free consultation, and examination of your skin.

Treatment.

Free review and top-up in two weeks (if needed).

Downtime

Up to 24 hours (some redness immediately post-procedure and occasionally bruising).

Results are seen in 7-10 days.

Fillers

from 410

Treats

Volume loss through ageing, jowling, lip enhancement, non-surgical nose reshaping, chin shaping, cheek refresh.

Appointment time

40 minutes

Includes

Free consultation and examination of your skin.

Treatment.

Free review and top up in two weeks if needed (we prefer less is more approach).

Downtime

Up to 48 hours (some redness immediately post-procedure and occasionally swelling/bruising).

Results are seen immediately and last 12-18 months.

Profhilo

450

Treats

Dull skin, wrinkles, sagging in the lower part of the face and neck, hydration, plumping of the skin.

Appointment time

1 hour

Includes

Free consultation, and examination of your skin.
Numbing cream and treatment.

Downtime

Up to 24 hours (some redness immediately post-procedure and occasionally bruising).

Results are seen in 2-4 weeks and best results are seen with 2-3 treatments. Packages available.

SkinPen Microneedling

255

Treats

Fine lines and wrinkles, scars, acne scars, textural changes, pigmentation.

Includes

Consultation and examination of your skin.
Treatment, including numbing cream.

Downtime

2-5 days - redness post-treatment and possible flaking.

Results are seen in 2-4 weeks as the skin cells rejuvenate.

Best results are from 3 sessions a month apart (packages available).

Clinical Facials

Good skin days start with great skin health – and this is where facials come in. We recommend a facial once per month for healthy skin maintenance.

Treats

Dull skin, wrinkles, acne, acne scars, hyperpigmentation, melasma, age spots, sun damage

Appointment time

1 hour

Includes

Free consultation, and examination of your skin - including a review of your skincare routine.

Peel, extractions, mask, massage, and Dermalux LED light.

Downtime

0 days.
